AUGUSTI REPORTS THAT THE SITU-ATION IS STIEL GRAVE,

AGUINALDO DEMANDS SURRENDER. Arrival of Spanish Squadron Anxjously Awaited, as Position of City

is Intenable - Captain-General's Family Still in Insurgents' Hands,

MADRID, June 28, 4 P. M .- The govproment has received the following dispatch from Captain-General Augusti, Cated Manila, June 23d: "The situation is still grave. I con-

tinue to maintain my position inside the line of block-houses, but the enemy is increasing in numbers, as the rebels occupy the provinces, which are surrendering. Terrential rains are inundating the intrenchments, rendering the work of defence difficult. The numbers of sick among the troops are increasing, making the situation very distressing, and causing increased desertions of native soldiers. *It is estimated that the insurgents number 30,000 armed with rifles and 100,000 armed with swords, etc.

SUMMONS TO SURRENDER. "Aguinaldo has summoned me to surrender, but I have treated his proposal with disdain, for I am resolved to ma ntain the sovereignty of Spain and the honor of the flag to the last extremity. "I have over 1,000 sick and 200 wounded.

"The citadel has been invaded by the suburban inhabitants, who have abandoned their homes, owing to the barbarity of the rebels. These inhabitants constitute an embarrassment, aggravating the situation, in view of the bombardment, which, however, is not seriously apprehended for the moment. INSURGENT DEFEAT.

"The Gevernor of the Viscayas and Mindanao islands cables that he hus defeated the insurgents in an engagement, during which Chief Arco, Aguinaldo's representative, was killed. He adds that tranquility now prevails throughout these islands, and he further asserts that the principal Malay chiefs of the Mindanao group declare they desire to fight on the side of the Spaniards, against the invaders.'

According to other advices, the emissaries sent out to seek General Monet's column of a thousand men returned, after a fruitless search.

Captain-General Augusti's family is still in the hands of the insurgents.

SPANISH GENERAL SURRENDERS. General Pena, with a thousand soldiers, has surrendered. His soldiers, most of whom are natives, joined the insurgents, tu in the A majority of the detachm Island of Luzon have surrendered, owing to their lack of food, though some succeeded in escaping.

Numerous Spanlards, including the governors of Batanga, Laguna, and Bulacan, have taken refuge at Cavite.

The rebels who are besieging Manila exceed 25,000 men. The city is completely isolated, and the arrival of the Spanish equadron is anxiously awaited, for the position of Manlia fs untenable. Small rebel craft navigate the bay, conveying prisoners to Cavite,

TROOPS FROM CHICKAMAUGA. Entire First Corps Soon to Be Off

for the Front. CHICKAMAUGA NATIONAL PARK, June 28.-The order issued Sunday to immediately equip and prepare fifteen regiments of the First Corps to form an expeditionary force was revoked by Major-General Brooke to-day. This does not change the plan to prepare for an expedition, however, since the revoking order affects more especially the transfers that were named in the former order. It provides further that instead of fifteen regiments being immediately equipped and prepared, the entire corps, of twenty-seven regiments, is to be hastily prepared for active field service, and the pared for active held service, and the natural inference prevails among the best posted army officers at the Park that the entire force will be off for Tampa, or some other scaport, within a week or ten

The regiments included are the Ninth The regiments included are the Ninth Pennsylvania, Scoond Missouri, First New Hampshire, Twelfth New York, Twenty-first Kansas, Eighth Massachu-setts, First South Carolina, Twelfth Minnesota, Fifth Pennsylvania, Fourteenth Minneseta, Second Ohio, Sixth Ohio, 160th Indiana, Thirty-first Michigan, Sixteenth Pennsylvania, Third Illinois, Fourth Ohlo, First Kentucky, Third Wis-consin, Second Wisconsin, Third Ken-tucky, Fourth Pennsylvania, and Fifth

Major-General Brooke was appointed by the President to command the corps.

Major-General Wade will be left in command at Camp Thomas.

The change made by to-day's order ap-

pears to have been in accordance with General Brooke's desire not to go to the

front without sufficient men for any emergency that might arise.

The work of equipping the corps is proceeding with all possible speed, and the quartermaster's and ordnance departments are helps laxed to their utmost ments are being taxed to their utmost

Major Otto Becker and Major Seymour Howell were the only government pay masters arriving to-day, although twenty-five were expected. Major Becket stated that the corps would begin pay-ing the army at once, and it is estimated that the amount to be paid out will not be less than \$2,000,000.

During Professor Mitchell's year of ab sence from Richmond College his department will be taught by Professor J. W. Downer, of Richmond.

The Committee on Instruction, of which Hon. J. L. M. Curry is chairman, held a number of meetings and considered many names before reaching a decision, but it was at last unanimously resolved to offer the position to Mr Downer. This gentleman has notifie President Boatwright of his acceptance and will enter upon his duties next September. He will have entire charge for one year of the four classes in the Department of Latin, Language, and Literature. Some idea of the responsibilities of the professor in charge of this work is gained when it is stated that Professor Mitchell had, during the session just closed, 100 students in his Latin classes.

IS HIGHLY COMMENDED. Professor Downer comes to Richmond College with the highest commendations. STORIES OF RELIEF.

Two Letters to Mrs. Pinkham.

without falling. I had womb trouble and such a bearing-down feeling; also suffered with my back and limbs, pain in womb, inflammation of the bladder, piles and indigestion. Before I had taken one bottle of Lydia E. Pinkham's Vegetable Compound I felt a great deal better, and after taking two and onehalf bottles and half a box of your Liver Pills I was cured. If more would take your medicine they would not have to suffer so much."

Mrs. Joseph Peterson, 513 East St.,

Warren, Pa., writes: "DEAR MRS. PINKHAM:-I have suffered with womb trouble over fifteen years. I had inflammation, enlargement and displacement of the womb. I had the backache constantly, also headache, and was so dizzy. I had heart trouble, it seemed as though my heart was in my throat at times choking me. I could not walk around and I could not lie down, for then my heart would beat so fast I would feel as though I was smothering. I had to sit up in bed nights in order to breathe. I was so weak I could not do any-

thing. "I have now taken several bottles of Lydia E. Pinkham's Vegetable Compound, and used three packages of Sanative Wash, and can say I am perfectly cured. I do not think I could have lived long if Mrs. Pinkham's medicine had not helped me."

LITTLE SICKNESS AMONG TROOPS Medical Men Say If Campaign is

Short the Soldiers Will Go Through in Good Condition-Yale Reinforce-(Copyright, 1898, by the Associated Press.)

JURAGUA, Monday, June 27, per Associated Press Dispatch-Boat Wanda, 6 P. M., via KINGSTON, Tuesday, June 28.-10 A. M.-Major-General Shafter, in command of the United States army of invasion, arrived here on board the trans port Seguranca, from Baiquiri, with Colonel John Jacob Astor, Captain Stuart Brice, Lieutenants Miley and Noble, and his staff, about 2 o'clock this afternoon, He was met by General Bales, who was superintending the landing of the commissary supplies in the surf.

Generals Garcia and Castillo paid their respects to the American commander, About an hour later General Shafter struck out on the road to the front, in order to consult with General Wheeler and the division commanders, and look over the field of operations before Santiago de Cuba. The General Baid he would probably return to the Juragua headquarters to-night.

HEALTH OF THE TROOPS.

Permanent hospital arrangements are to be provided at Juragua at once. The transport froquois, anchored off the shore, is provided with trained nurses Tent hospitals will also be erected on a cliff overlooking the There are very few cases of sickness among the troops-measles, prostration, and dysentery, chiefly. Spo-radic cases of yellow-fever are reported insurgents, but the disease is not epidemic.

The troops are in good camps, on high ground, overlooking the sea. The nights and mornings are cool and pleasant, but the midday sun is hard on the unacclima tized troops, in the marches over the hills. The medical men say that if the campaign is short the troops will go through

od condition. The movement of troops to the front is steadily going on. American and Cuban infantry and cavalry, and long lines of mule pack-trains and batteries of artillery choke all the roadways over the

hills to Santiago de Cuba. ARRIVAL OF DUFFIELD. At 10 o'clock this morning General Pearson's brigade, the Second, Tenth, and Twenty-first Infantry, of the First Division, General Kemp commanding, moved out to occupy a position on the extreme left, towards Morro Castle, and for a few hours the camp was almost deserted Then the auxiliary cruiser Yale came in sight, with the new arrivals of American volunteers, consisting of the Thirty-third Regiment and one battalion of the Thirty-fourth Regiment of Michigan Infantry commanded by Colonels Peterman and Boynton, Brigadier-General Duffield ac companied them, and the men are no encamped, awaiting the rest of the Thir ty-fourth Michigan and the Ninth Massa chusetts Regiment, on board the Har-vard, which vessel is expected here to-

At the Main-Street Park,

Monday night's success at Main-Street Vaudeville Park was repeated again last night, when the strong bill, then pre-sented, ingratiated itself with another very large audience. The warm weather, coupled with the unusual merit of the performances being given, has served to make this resort exceedingly make this resort exceedingly popular, and the crowds in attendance increase nightly. The programme is just many-sided enough to give free play to the songs and dances of the World's Trio, who are adepts at both; a good setting to the character work of Miss Ida Russell and to allow just enough eccentric sell, and to allow just enough ecce sell, and the comedy, by Gilson and Perry, to make comedy, by Gilson and Perry, to make the clever singing of Joe Bonnell unfail-the clever singing popular. It is not unjust to these ingly popular. mbers, however, to state that the little medy, "Before the Ball," which closes comedy, "Before the Ball," which closes the bill, is quite the most entertaining sketch of all, and Miss Adelle Jackson has already won hosts of admirers of her splendid voice. Among her nightly selections are a coy lullaby, "Kentucky Babe," and one of the solo part from El Trovatore. Mr. Harry Jackson also introduces a dexterous clarinet specialty in the mock rendition of the "Carnival of Venice." GOVERNOR TO ORGANIZE MILITARY COMPANIES THROUGHOUT STATE.

LIEUTENANT-COLONEL R. C. CROXTON

This Officer Named as Commander of the Two Negro Battalions from This State-The Colored Soldiers Not Enlisting Very Rapidly.

The call from Petersburg Monday night for a military company to suppress a mob caused the Governor to ponder somewhat on the results that might attend the depletion of the State militia by the departure for war of almost all of the volunteer soldiers of the Commonwealth, and as a result he has decided to reorganize the State militia as soon as he possibly can. It is his purpose to organize companies in Petersburg, Norfolk, Lynchburg, and Staunton, and to put the three companies remaining in this city on a good basis.

With this end in view he will confer with Acting-Adjutant-General Jo Lane Stern to-day, and as soon as his plans can be perfected he will issue a call for volunteers in the various cities named above. It is his purpose to ask the Con federate veterans who are sufficiently able-bodied to do duty around their homes to organize companies, and where the number of veterans is insufficient to make up a company, to ask the young men to join them. The one great trouble the Governor will

labor under will be to supply the companies thus organized with guns. There is no money in the State Treasury available for this purpose, so he has determined to call upon the State military academies to return their guns to the State Armorer, and these rifles will then be issued to the volunteer companies, to be held by them until guns can be secured from the Federal Government to replace those taken by the troops which were mustered into Uncle Sam's service, LIEUTENANT-COLONEL CROXTON.

The Governor has appointed Lieutenant R. C. Croxton, of the First Infantry, United States army, who was detailed here as instructor of the State volunteers, as lieutenant-colonel of the two-battallons of negroes now being mustered into the Federal service. The Governor's reasons for appointing an army officer for the two battalions was that the Hull bill provided that at least one regular field officer should hold office each regiment of volunteers organized, the intention being evidently to have the advantage of army discipline and regu-lations in each organization. Believing that the same thing should obtain with the two battalions, the Governor named Lieutenant Croxton, and is confident that the War Department will give his action the stamp of approval. The Governor had recommended Lieutenant Croxton as major of the Fourth Regiment, but the officer was sick when that regiment was ordered away. He has now recovered, and, asking to be assigned to this duty, his request was quickly complied with. Had Lleutenant Croxton not recovered sufficiently, Captain Ayers, of the regular army, who is now in Cuba, would have been named by the Governor.

Colonel Croxton will have the appoint ment of a battallor surgeon, and has decided to appoint one of the young physi-cians of this city to that position. The name of the surgeon could not be ascertained last night, but it is thought that he has held the office of surgeon of the Blues' Battalion, The Governor is anx-ious, also, that Colonel Croxton shall have an adjutant and a quartermaster, and he has written to Washington and asked that he be given authority to name two gentlemen for those positions

THEIR EXCUSES ARE MANY. Major Shanks, who has been designated by the War Department to muster into the Federal service the members of the two negro battalions in Virginia, is having a hard time of it at the colored armory, on Leigh street. Almost half of the members of the Richmond companie are unwilling to go to war, and they claim physical disabilities which exempthem from duty. Major Johnson is, however, not discouraged. He says that he has more than a hundred men in Lynchburg who are anxious to come here and join his command, and he can get a many more from other parts of the State The work of examining the volunteers in this city will probably be completed day or to-morrow, and then Majo Shanks will go to Petersburg.

WHERE THEY WILL CAMP. In the mean time Major Price, who has charge of the commissary department, is busy arranging for the accommodation of the colored soldiers. His first duty is the selection of a site for the compaty which they are to be mobile. the camp at which they are to be mobi-lized, and in company with Mr. John D. lized, and in company with Mr. John B. RECRUITS GO TO JACKSONVILLE. The work of recruiting the volunteers for the Second and Fourth regiments, now at Jacksonville, is progressing rapidly at the St. Claire Hotel. Sixteen recruits were started forward yesterday at noon over the Southern railway. Caprain Bossieux sent six to the Second Regiment and Lieutenant Klein ten to the Fourth. The recruits for the Fourth were in charge of Mr. Tabb Lane. Besides himself there were in his party Henry S. charge of Mr. Tabb Lane. Besides him-self there were in his party Henry S. The recruits for the Second were George T. Milstead, Charles R. Johnson Allen G. Spraggins, John R. Gibason, Arthur L. Tatum, and Jefferson D. A note expressing good wishes for the success and welfare of the boys accompanied the boxes.

ANOTHER ARMY OFF NINE THOUSAND MEN LEAVE TAMPA FOR SANTIAGO.

WILL REACH SHAPTER SATURDAY. This Will Bring the Army in East

Cuba Up to About 30,000 Men-Miles Probably Going to the War, But Exactly When Unknown,

WASHINGTON, June 28 .- Orders have been issued for the departure of another large army expedition from Tampa, composed of about 9,000 men of the Second Division of the Fourth Army Corps, under command of Brigadier-General Snyder, and six batteries of artillery, three light and three heavy. The preparations have been proceeding quietly for some days, and although the stores have been going aboard at Tampa, a rigid censorship at that point has prevented any word going out as to the expedition,

The actual departure from Tampa was expected by the War Department to occur to-day, although there may be unavoidable delays. Twelve transports are to carry the expedition. The warships constituting the naval convoy are hodisclosed, but they probably will include one battleship and several cruisers and auxiliary craft. SNYDER'S DIVISION.

General Snyder's Second Division of the Fourth Army Corps is made up of three brigades and nine regiments, as follows; First Brigade, Colonel I. de Russey, commanding-Eleventh United States Infantry, Nineteenth United States Infantry, and one other regiment. Second Brigade, General L. H. Carpen

The trip, doubtless, will be to the eastward, around Cape Maysi, along the same route as that of the Shafter expedition. This will bring Shafter's force up to about 20,000 men, made up of the 16,000 men he took with him, General Duffield's command on the Hartard and Yale; General Garretson's command, which will go on the same steamers, and General Sny-

determined. THE HABANA BLOCKADE, Long Earthworks, Not Heretofore

M .-For the first time in four weeks a newspaper dispatch-boat visited the blockading fleet off Habana yesterday. The conditions were found to be as peaceful as the waters of the Gulf Stream were turbulent. Since the good practice by the Spanish gunners against the Montgomery, the other day, the particulars of which were cabled at the time, nothing has cocurred to break the monotony of this

peaceful blockade. Rarely has Cuba's capital been seen under such exceptional advantages as it was yesterday morning, when the Cynthia II steamed lasily along nine miles

off the harbor entrance.

To the eastward long earthworks, not seen before by newspaper-men, crowned the hill, and advices from Habana say work on these, and similar fortification to the westward, is being pushed daily. The health of the fleet is good, on the whole.

SITUATION AT MANILA.

Dewey Will Demand Capitulation on Arrival of Reinforcements. LONDON, June 29 .- A dispatch to the Daily Telegraph from Manila says:

"The report that Germany will not permit a bombardment is exciting deep irritation in the American fleet, Admiral Dewey intends to demand a capitulation the instant reinforcements arrive. He told Prince Henry of Prussia that he would be glad to see the German officers at Manila, but it would be well to caution them to keep out of the American line of fire. It remains to be seen whe ther Germany has really given such pro-

mises as are pretended. Two attempts have been made on the life of General Aguinaldo in order to secure the reward placed on his head by

Captain-General Augusti.
"The United States cruiser Boston ha gone to Bolaino to establish there, so it is reported, a base of operations. Cap-tain-General Augusti has arranged a conference with the foreign admirals, sumably on the subject of protection for the lives of non-combatants,

THE STATUS UNBEARABLE. "The situation is growing unbearable. The besieging force give us no rest, and the work of the Spanish troops on the line of defence is terrible. They are fighting with the desperation of resignation. They have no nourishing food, and for days have been reduced to eating wild birds and shell fish, Still, with starvators in the face they hold tion staring them in the face they hold their posts and fight with the courage of

"The population is in a state of terror. No details have reached here as to the fate of Captain-General Augusti's family. "The provincial garrisons have been starved into surrender. The belief, first entertained, that Germany would help Spain is growing fainter, and it is now feared that she will share in the partition of the Philippines. There are now seven German warships in the bay."

German Interference "Impossible." LONDON, June 29.—The Hongkong correspondent of the Daily Telegraph. wiring Tuesday, says: "I have consulted with the German authorities, and they declare, unanimously and emphatically, that the reports from Manila of German interference are impossible. Whatever interference are impossible. Whatever the Spanish may have done, the German admiral has held out no such hopes of promise."

A Time for Willing Hands,

(Williamsburg Gazette.)

It is amazing how our young men-the men upon whom the future resta-spend their days in inactivity and idleness. There are some here who have, we venture to say, never earned a dollar in their lives. There are those who live on the kindness of others-parents, widowed mothers, or indulgent relatives.

Our boys, the men of to-morrow, ought to be put to work. The age and time demand active, wide-awake men, with strong hearts and willing hands. A new era is upon us. Times have changed, and the man to-day without a profession or an occupation, unless he have wealth, is lost in the great secthing tide of men prepared to perform the vocations and duties of life.

Things do not turn up for you nowadays unless you go to work and "turn something up" yourself. Good positions, honors, and wealth rarely come to any man. There are openings for young men of sound sense, good business judgment, experience, and industry. But there is no room for an aimless, hair-brained, donothing fellow anywhere.

When we say that every man should have a profession or occupation, we do not mean to say that they short all be (Williamsburg Gazette.)

When we say that every man should have a profession or occupation, we do not mean to say that they should have a profession or occupation, we do not mean to say that they should have been of some should have been of the same should have been of the same should have been of the same should have been of the land. There are D. D.'s, Ph. D.'s, D. D. S's, A. M.'s, and B. L.'s that had best been carpenters, wheelwrights, clerks, merchants, or anything else that they are not. In other words, they should not try to be something for which nature has never fitted them. There are too many missit lawyers, doctors, preachers, and editors, and, consequently, too many educated fools in the land.

We want men with willing hands, quick to grasp a good thing when they see it. We want men who live in the splendow of the twentieth century, not men, parasite-like, with all their manhood, brains, and abilities wrapped up in the grave-clothes of deceased ancestors. We want men with skilled minds—successful men, be they carpenters, farmers, mechanics, lawyers, or doctors. Above all, we want our men active, alive, alert, honest, and industrious; not those who scoff at honest toil and despise those sturdy fellows who tabor with their hands. The man who tolds for his bread is a here to the parasite that draws his substance from others,
